JOINS IN THE CRASH.

Two Banks at Indianapolis Bow to the Inevitable.

Milwaukee and Louisville Each Add One More Bank Failure to the Already Long List.

INDIANAPOLIS, July 25.—The Indiana Trust Company National bank, capitalized at $300,000, closed its doors this morning. No statement has been made as to its condition, except that the failure is for $1,200,000. For some days rumors have been current to the effect that the bank was in trouble, and those rumors have had the effect of starting a quiet run upon it, which, quiet though it was, has depleted the bank's funds and finally made necessary the action of today.

For many years the Indianapolis National has been regarded as among the strongest banks in this city. The suspension of the bank is due to the general financial stringency, the currency of the rumors which inaugurated the runs, and the fact that the management did not sufficiently realize the extent of the talk concerning the bank to enable them to make ready preparations for the worst. According to the statement of the bank made July 15, the loans and discounts amounted to $1,545,854 16, while cash and securities on hand aggregated $984,000. The individual deposits subject to check were $826,570 50. The bank was a United States depository and had all the federal money in it amounting exactly to $400,000. The Indianapolis National bank is one of the oldest and probably one of the most flourishing banks in Indianapolis and the entire west. The gentleman who was president at its organization in 1864, T. H. Haughey, is its president still, and during its entire existence there has been but two cashiers, E. E. Rexford, who now holds that position, and H. Lutzman, who was cashier of the organization until he resigned in 1888.

Mr. Haughey, the president, is not only the oldest bank president in continuous service in the city, but he is without exception the oldest banker president.

President Haughey made the following statement this morning.

"I was not aware until Saturday evening of the gravity of the situation. The Louisville and New Albany failures seemed to aggravate the local situation in such a way as to produce rapid spreading and fatal rumors. I thought it was wise at that time to consult with some of my fellow bankers, and called in representatives of Fletchers', the Indianapolis National, Meridian National and Merchants' National banks.

"It was my opinion that $30,000 would carry our bank through and I asked for this amount in the shape of a loan. These banks very generously gave me $30,000. This sum was sufficient to carry me through yesterday but left me at the close worn off than on Saturday evening. Meanwhile we were unable to immediately realize on a great deal of our securities. We all concluded that the ride that had set in was too strong to stem and it would be best for all concerned to suspend."

INDIANAPOLIS, Ind., July 25.—Indianapolis is in a fever of excitement this morning. At nearly all the banks there are depositors drawing out their money, but it is is not as yet yet a sustained run on any one of them except Fletcher's bank. This is one of the oldest banks in the city, and is regarded as one of the soundest and most conservative financial institutions in the west. It is a private bank, owned by Allen M. and Stoughton J. Fletcher, who are both millionaires. The last statement of the bank showed about $900,000 of cash on hand, and bonds to secure depositors of over $1,000,000.

It is one of the freaks of the panicky condition this morning that this bank should be subjected to the severest run. The withdrawals are from small depositors.

The doors of the Bank of Commerce were not opened this morning. This was not unexpected, as the bank was owned by the DePauws and the DePauw estate, and because of the failure of G. W. DePauw Saturday a run was made on the bank yesterday.

The bank is the oldest in the city and one of the oldest in the state. It was organized as an insurance company in 1836, with banking privileges, under the then existing laws.

In 1868 it was regularly incorporated as a bank. It has a capital stock of $200,000. Of the DePauw estate, Mrs Washington C. Depauw, N. T. DePauw and C. W. Depauw owned nearly three-fourths. The first named are worth $6,000,000 and are liable for twice the amount of their stock. The last named has made an assignment. N. T. Depauw is president of the bank, but John W. Ward president, has had the

e statement take
morning show
nts amount
42

and that they, being unable to secure money upon securities, it was deemed best to suspend until some of the resources of the bank would be available. He says that the suspension will only be temporarily.

At 10:30 this morning runs were inaugurated on the Meridian National and Depositors' bank, and at the latter named there were several hundred depositors there. Those making the runs are purely all small depositors. It is not believed that the runs will injure either bank. The Indiana National bank is not a member of the Clearing House association.

LOUISVILLE, Ky., July 25.—The Merchants' National bank suspended payment this morning.

MILWAUKEE, Wis., July 25.—The Wisconsin Fire and Marine Insurance Company bank closed its doors this morning. This is Senator Mitchell's bank and has been considered the strongest bank in the city.

SANDUSKY, Ohio, July 25.—G. B. Hodgeman Manufacturing company has gone into the hands of a receiver, and their works are shut down. This company, which is an old one, has carried on a profitable business, but was hampered by the tightness of the money market and inability to make collections. Being unable to raise money to meet present obligations they applied for the appointment of Clark Rude as receiver.

The application was granted by Judge Greene. It is believed that in the near future arrangements may be made to continue the business. The stoppage of the works makes over 150 men idle.

TOLEDO, Ohio, July 25.—The G. B. Hodgeman Manufacturing company, one of the largest concerns in Sandusky, went into the hands of a receiver this morning. The court appointed Clark Rude, of Sandusky, as receiver.

LOUISVILLE, Ky., July 25.—At 1:30 o'clock this afternoon the Fourth National bank closed its doors.

TOLEDO, Ohio, July 25.—The Farmers' National bank of Findlay, Ohio, closed its doors at noon today. No statement has been given out as yet. No excitement prevails and the other banks in the city are prepared for any run that may follow.

SILVER MEN MEET.

The Three Days' Silver Convention at Chicago.

Their Greatest Orators Will Speak at the Mass Meeting to be Held Tomorrow Night.

CHICAGO, July 25.—The preliminary meeting of the silver convention was held yesterday afternoon in this city. General Warner, president of the bimetallic league, was in the chair. It was decided that the convention should be held for three days. The first meeting will probably convene in the recital hall of the Auditorium Tuesday, Aug. 1, then a mass meeting will follow Tuesday evening at Central Music hall. Wednesday evening there will be a monster mass meeting on the lake front, to which all laboring men and friends of honest currency are invited.

This mass meeting will be addressed by Congressman John Davis, of the Knights of Labor, of Kansas, Senator Jones, of Nevada, and Senator Peffer, of Kansas. This will be the first grand rally of silver men east of the silver state before congress meets.

It is intended to make of this open air meeting on the lake front in Chicago the grandest demonstration of the silver element to be given before the opening of congress. An attempt will be made to have present as orators all the great senators and other mouth pieces of the silver element of the west.

WILL RUN THEM OUT!

Hot Fight Against the Gas Company at Logansport.

Unmercifully Scored at a Mass Meeting of Citizens for Charging Extortionate Prices.

LOGANSPORT, Ind., July 25. Another public indignation meeting was held last night in Court park to protest against the action of the Natural Gas company and to hear reports regarding the formation of a new gas company. Three thousand people attended.

Ex-State Senator D. D. Dykman presided and after calling the meeting to order proceeded to unmercifully score the old company for attempting to double the old rates charged for gas.

The secretary reported almost $100,000 subscribed for the formation of a new company, and it now seems to be a settled fact that the citizens' company will be established and the old company will be compelled to remove its pipes from the streets, which will render its plant worthless.

was organized today. Dr. Benton was elected president, Dr. Stenan secretary and Dr. William Rauh treasurer. The board will take charge Wednesday.

FATAL WRECKS.

Five Passenger Coaches Go Down a Ten Foot Embankment.

Thirty-Five People Severely Injured on the Baltimore and Ohio—Another Crash in Rhode Island.

CRESTON, Ohio, July 25.—The second section of Baltimore and Ohio express, east bound, was wrecked one mile east of Monroe Falls, about 4:20 this morning. Spreading of rails caused the wreck at a point where there is a short curve in the track.

Five of the coaches, loaded with passengers, most of whom were on their way to Chicago, were thrown down a ten foot embankment. Nobody was killed outright but thirty of them, it is thought, are seriously injured. All of the wounded were taken to Akron by special train and sent to the city hospital. About a dozen doctors from Akron went down with them.

The special train bearing the injured from Monroe Falls reached Akron about 8:30 o'clock. All the ambulances in the city were at the depot, and the injured were conveyed as speedily as possible to the city hospital, where they received the attention of a score of physicians. It is impossible at this time to state how many of those hurt will die or how serious all their injuries are. Here is a list of those now at the hospital:

Henry F. Hoils, Philadelphia, back sprained.

N. P. Boyer, Coatsville, Pa., serious cut on head.

Wm. M. Morrow, Philadelphia, head cut and back hurt.

Louis Steinback, Baltimore, leg cut and bruised.

James E. Muse, Baltimore, back sprained.

Frank White, Lafayette, Pa., slightly cut, not serious.

Mrs. Eliza White, Lafayette, Pa., shoulder dislocated.

I. B. Meredick, Washington, D. C., severe scalp wound.

F. O. Staats, Vienna, Fairfax county, Va., injured internally.

Dr. J. R. Allen, Baltimore, arm and ribs broken.

W. A. Stodo, Washington, D. C., head injured.

H. C. Mode, Washington, D. C., wound in head.

Mrs. Maggie Gour, Washington, D. C., internal injuries and arm broken.

Mrs. Mary N. Smith, Washington, D. C., severe cuts about the head and neck.

Mrs. Lola Hunt, Baltimore, head cut.

Annie Miller, Washington, hurt about the head, arms and side.

Lillian Cramer, Camden, N. J., arm fractured.

Isabel Forbes, Camden, N. J., head cut.

H. M. Mico, Camden, cuts on head and back.

L. Sturat, Baltimore, injuries about breast and head.

Mrs. Lena Sturgeon, cut about head, with Mrs Sturgeon were three children, all escaped.

When the cars left the track many of the passengers were asleep. The last coach was the one most seriously wrecked. It jumped the rails where the curve was the sharpest and plunged along the ties about fifty yards before tumbling down the embankment. Seats and timbers were piled promiscuously on the imprisoned passengers. Fortunate for them there was no fire to ignite the old coaches or there would have been a repetition of the horrible Revere disaster of July 3, 1891.

It is impossible to tell exactly what caused the spreading of the rails, probably the heavy trains which the Baltimore and Ohio has been running to handle the world's fair traffic. It is generally agreed that the tender of the second engine (the train consisted of ten coaches drawn by two engines) was first to leave the track. One theory is that it loosened the rail bolts which then allowed the rails to spread, as the heavy cars came along.

PROVIDENCE, R. I., July 25.—At 1:15 o'clock this morning the first section of the mail train from Boston to New York was wrecked opposite Dodgeville station. The train consisted of Old Colony engine No. 117, two United States mail cars, a baggage and several passenger coaches.

A freight train from Boston had passed through Attleboro at midnight and switched off some cars at Dodgeville, and one of them was left on the main track in the way of the mail train. The train approached the obstruction at the rate of thirty miles an hour, and crashed into it before the engineer could reduce the speed of the engine.

The engine was completely ... ished. A mail clerk named M... longing in New York, was ... killed, and another mail clerk ... Murphy seriously hurt. Seven passengers were also injured.

MINISTERS ON HIS BACK!

Tillin's Major Denounced For Not Enforcing the Laws.

They Pulled off Their Coats to Meet Him and Now He Shuts His Door in Their Faces.

TOLEDO, Ohio, July 25.—The ministers of this city are experiencing a perfidical spasm in favor of law and order and are holding two meetings a week to denounce the mayor, Rush Abbott, and the marshal Fred M. Frink, for not enforcing the laws.

As the mayor is a republican and the marshal a democrat, there is no partisan politics in the fight, but it is furnishing considerable amusement to those who remember how the preachers took off their coats last spring to work for Abbott's re-election and turned their pulpits into political rostrums to aid Abbott for the very sufficient reason that his democratic competitor, Louis Wagner, is a Catholic.

One of the ministers, the Rev. H. J. Sawyer, of the Church of Christ, had announced Easter services commemorative of a risen Savior for the night before the last election, but postponed the services to preach a sermon to aid Abbott. Christ could wait, but Abbott's necessities were urgent.

Last Saturday, it is reported, Sawyer went to Abbott's office to expostulate with him for the non enforcement of the laws and had the door shut in his face by the mayor himself. The preachers now threaten to impeach both the mayor and the marshal if the Sunday and other violated laws are not enforced.

ALEXANDRIA, Ind., July 25.—As the result of a meeting last Saturday night a law and order league was formed. It is proposed to promote the cause of moral reform by assisting the constituted authorities in enforcing existing laws. The league is backed by eighty of the best men of the city.

TOWN BURNED UP!

The Business Portion of Hollow Rock, Tenn., Destroyed.

The Newspaper Office, the Postoffice and a Dry Goods Store are Alone Left Standing.

HOLLOW ROCK, Tenn., July 25.—The business portion of the town was destroyed by fire last night. Only the Record office and the postoffice and a dry goods store remain standing. The loss will reach $40,000, with small insurance. The origin of the fire is believed to be incendiary.

OFFICER MURPHY.

He is Called Up Before the Police Commissioners—Driver Sanders Also on the Carpet.

The police commissioners are holding an important meeting this afternoon and are investigating the case of Officer Murphy, who is charged with intoxication, and Driver Sanders, charged with insubordination.

BEAT HIS DAUGHTER.

Pelton Weisburger is Fined by the Court on That Charge.

Pelton Weisburger was arrested this morning and fined in Justice Tuesley's court for having whipped his daughter. He said that he did it because his daughter persisted in staying out late at night and gadding around the streets. The Sentinel doesn't know but that Mr. Weisburger's head is level in punishing his daughter for these acts of indiscretion. There is no sense in girls gadding the streets every night until 12 o'clock and parents are to be commended for trying to stop them from doing it.

THAT BABY.

The Little Colored Child Over Which so Much Has Been Written Died.

Yesterday afternoon Undertaker Pelteir was called upon to take charge of the body of Harry Lori, aged two months. The baby is the colored child born out of wedlock of a white mother. The little one has had a stormy time since it came into the world and died of neglect and the warm weather. Dr. Sturgis attended and stated that the little one died from perfectly natural causes.

The authorities of some of the Southern States seem to be taking up the subject of immigration with earnestness and intelligence of purpose. Realizing that an influx of industrious, thrifty settlers is necessary to the development of the neglected resources of their section, they are contemplating the establishment of permanent agencies abroad, and meanwhile propose to avail themselves of the kindly offices of those consular officials in Europe who have been appointed from the South, and who are especially familiar with the ... desirable needs, especially as to the class ... most desired. Immi... are to ... Dept. ar...

THE DEATH RECORD.

Bernard O'Connor, a Pioneer, Called to Rest.

Sad Death of a Young Mother—Insanity of the County Farm Dies at Spencer.

At 4 p. m. yesterday occurred the death of one of Fort Wayne's pioneer citizens, Bernard O'Connor, aged seventy-six years, at his home, 156 West Wayne street. The deceased was born in Ireland in 1817, and came to America alone when he was but twelve years of age. He completed his education, which was somewhat neglected early in life, at Lancaster, Pa., under the tutorship of an uncle, who was a Catholic priest. He became a contractor in 1837, and at the time of his death was the oldest telegraph builder in the United States. He was the third telegraph operator in the United States, and the first to use the ground as one half of the circuit. He moved to Fort Wayne in the fall of 1858, and resided here since. No time for the funeral has been arranged.

SHIPE.

A sad death occurred last evening at 8 o'clock. Mrs. M. C. Shipe, aged twenty six, died after giving birth to a healthy baby boy, who is alive and doing well. The husband of the deceased is employed in Tennessee and was apprised of his great loss by telegraph last evening by the father of the deceased, G. S. Carll, the cabinetmaker, 143 Lafayette street, at whose house she died. Besides her husband and young babe, the first born, Mrs. Shipe leaves her father and mother, two sisters and a brother, G. S. Carll, jr., who is assistant business manager of the Sioux City Tribune, John C. Kelly's paper. A telegram was sent to Mr. Carll at Sioux City last night. His wife and children have been here for a month. The time of the funeral has not been decided.

BERRETT.

Albert Berett, an inmate of the county farm, died this morning in a spasm, aged thirty. The deceased has been at the infirmary for several years and is well known in Fort Wayne.

LOCAL LINES.

Burning grass called the department to the south side this afternoon.

Attorney E. V. Emrick has returned from a week's visit at the world's fair.

Gus Schmucker, of the electric light works, is laying out a track for the bicycle races.

Last evening, at his office, Justice Hays married Marion Wyatt and Miss Minnie Bruner.

The county board of review was in session today and several corporations had their assessments increased.

A bicycle rider was overcome with the heat this morning and was in an alarming condition for a few moments.

Mr. L. Booker, the Nickel Plate conductor, and family, have returned from a two weeks' visit at the world's fair.

Last evening another lot of man were suspended at the electric light works. It is hoped, however, that the suspensions will be only for a week or two.

Charles Feiserkorn, the popular salesman in the carpet department of D. N. Foster's store, and his family are now comfortably domiciled at 61 Douglas avenue, having moved yesterday.

James J. Brown, son-in-law of Walkroan Maddox, was taken with a severe hemorhage of the lungs, yesterday. He was taken to his home on East Main street in the patrol wagon.

Matthew Donaldson, of Poplar street, who has been almost at death's door for some time, is resting easy today and his friend are greatly encouraged by the change for the better.

Mr. W. F. McCaughey, assistant state secretary of the Young Men's Christian association, is in the city and will attend the forty-five minute song service at the railroad department Y. M. C. A. this evening.

Miss Annie Matsdon, of Sheffield, England, who has been the guest of Engineer and Mrs. H. D. Rose for some time, will leave tomorrow for Chicago, where she will spend a ... or two at the fair before returning home.

Nelson Howe will be laid up for the ensuing fortnight. Yesterday, while polishing wheels at the electric light works he had the misfortune to cut a deep gash in his right knee. V. J. Quinn has taken Mr. Howe's place in the shop.

NOTICE is served in the Christian Union of the impending trial of an extraordinary experiment which has been discussed and is of unusual interest. The People's Bank Association hopes to open upon the ... several ...

...the loungers in the porch caught the glimmer of a dress inside. At once all were on the alert.
"Ladies coming!" they exclaimed. "Here's a deputy!"
Jerry Bradford, seated at a table in the barroom, coolly laid down a card hand[illegible] reached the outside in time to see[illegible] ...ly from the stage, were hardly fitting his hat as he did so.
"Mrs. Lowry, I reckon," said Jerry, as she alighted.
The lady threw back the veil from her face, smiled and answered:
"Mrs. Lowry's my husband!"
The crowd that had gathered in[illegible] ...ter respectfully about the stage fell back astounded—not at the question, but at the woman who asked it. Lowry was sixty years old if a day, at the time he was so unceremoniously[illegible] ...ut of existence. He had never spoken much about his wife, who had been left in the East fully ten years before, yet from familiarity with Jerry's[illegible] ...ness, and still more homely ways, the miners had formed the impression that his wife must be a woman of forty, and equally angular and unlovely in her appearance. But here she was before them, a woman of possibly[illegible] ...plump and shapely, with a face that was simply bewitching. She was absolutely handsome and there was an expression in her eye and mouth that seemed to intimate that she knew it.
The smile disappeared and she looked at Jerry somewhat anxiously. "Will he[illegible] ...Mr. Lowry here to meet me?" she asked.
There was a painful pause. The miners looked at Jerry and Jerry looked at his boots.
"She's a widder," he finally said, as he slowly[illegible] ...his eyes but with his head "done fo...dim's a millin...[illegible] ...h workin' Bonanza blaze, you bet! ...ain't ready for you, an'—an' ...ought to[illegible] ...with a flour or some thin'. Tain't to[illegible] ...here, but say! You must be Cleal and hungry. There's a[illegible] ...for you in this here hotel, an'[illegible] ...take you over to...in later."
With apparent[illegible] ...Mrs. Lowry followed the hotel proprietor to the room that had been fitted up for her[illegible] ...before and scarcely slept, but[illegible] ...exercises, while the crowd, with exclamations of[illegible] ...ment and delight, pressed forward to the[illegible]
"Fellers," said Jerry, with the air of one who has just discovered a rich "pocket" of the yellow metal, "fellers, here's to the widder!"
And they[illegible] ...Mrs. Lowry accompanied Jerry to the[illegible] ...and on the way up the trail he broke to her the sad news of her husband's death. But in what way he imparted the melancholy information its companions never could learn.
"Mary," he[illegible] ...began in reply to her questions, "it makes me creepy to think about it, an' look on that terrible[illegible] ...but let's[illegible] ...down as easy as possible. Though she[illegible] ...
...wasn't when I showed her where a man shouldn't[illegible] ...
...ing[illegible] ...expressions I'm[illegible] ...a liquor.

Mrs. C. D. Gorham is this week entertaining her father, P. P. Bailey, and her sister, Mrs. George L. Little, of Jackson, Mich. They have just returned from Chicago.

Saturday evening Miss Ricka Meyer entertained a number of her young friends at her West Waynestreet home. The honored guests were Misses Sadie Hirsch, of Newark, N. J.; Gertrude Baker, of South Dakota; Lilian Wolf, of Chicago; Helen Hohenfeldt, of Philadelphia; Messrs. Morton Hirsch, Simon Sears, Charles Hinkheimer, Newark, N. J.

There were two cases at police court this morning. One was a negro named Charles Hill and the other was William Reardon, a one armed vagrant. Hill was caught by Officer Stoll last night while riding on the top of passenger train No. 8. Hill claimed at the station this morning that he was roughly used by the trainmen. He was fined $3 and costs and went to jail. Reardon was arrested by Officer Paul for being too fresh. He was also sent to jail.—Officer—limecooley arrested Mrs. Carey, a well known drunk, who is now at the station.

A charming lawn social was given at the residence of Dr. C. B. Stemen, on Broadway, last evening by Misses Lizzie, Hattie and Mamie Stemen. The lawn was brilliantly lighted. The event was given in honor of J. F. Hough, a prominent merchant of Washington, D. C., who is the guest of Dr. Stemen and family this week. The South Side Wayne Mandolin club and the Fort Wayne Mandolin club furnished pretty music for the occasion, while Miss Mamie Stemen rendered some fine soprano solos. The affair was one of the most pleasant of the season.

Yesterday afternoon a special committee of the city council met in the office of the city engineer and made their assessment for the six foot portion of the new Tenth ward sewer. The total cost of their portion of the sewer has been $23,005 and property holders in the Eighth and part of the Tenth ward will be assessed about seventy five cents per front foot. The matter comes up before the city council this evening for approval after which three weeks' notice will be given to property holders. All property owners are equally assessed without regard to nearness or distance from the sewer. The city is assessed $3 259 42.

Sparkling with News.

(Tiffin, O., Daily Tribune.)

The oldest newspapers published in Indiana is The Evening News of Fort Wayne, which has completed the sixtieth year of its existence. It enjoys the honor of having the largest circulation of any paper in Hoosier state outside of Indianapolis, and it has a circulation, for The Sentinel is full of sparkling news and [illegible]

QUITE A BLAZE.

A Barn Burned at Four o'Clock Yesterday Afternoon.

Six Buildings Were Dry as Tinder and Went Like a Flash—Neighbors Had Roasted Chickens.

A furious fire occurred about 4 o'clock yesterday afternoon on John street. The flames were first discovered in a barn in the rear of the premises of Mrs. Catherine Brown, at the corner of Pontiac. Mrs. Brown's little son discovered the blaze but the fire lads were unable to do much when they arrived, as the fire had a good start and the building was dry as tinder. The alley was a narrow one and the flames were easily communicated to the barns adjoining. Seven structures were soon consumed, ranging in value from $50 to $600. Mrs. Brown lost two buildings, one a new barn worth $600. She carried $300 worth of insurance. Charles Holker's barn, at No. 221 John street, burned. Loss $200; insured. The flames leaped across the alley and destroyed the barn of Louis Wagner, at No. 226 Gay street. Twenty-five chickens were cooked alive. The loss will reach $100, not insured. The buildings of Fred Pollitz, adjoining, were destroyed. About a dozen chickens were roasted. Loss, $50, insured. The barn of Henry Sandlaeder, at No. 231 Gay street, burned. Fifteen old hens were roasted and a number of little chickens. Loss, $75; not insured. The barn of August Schubert, the grocer, went with the other buildings. Fifteen chickens were burned alive. The family horse and new carriage were gotten out just before the flames reached the barn. Mr. Schubert's loss will reach $50 or $60.

During the fire Henry Ulbrecht's residence, 230 Gay street, and fully a half block away, caught fire and was saved only after hard work. Mischievous boys are supposed to have started the blaze. The value of the property destroyed will probably reach $2,000.

AMONG THE WHEELMEN.

Important Questions to Come Before the L. A. W. at Buffalo in September.

Wheelmen all over the country are much interested in the notice which President Burdette, of the L. A. W., has just issued calling for a special meeting of the league at Buffalo on Monday, September 25. The meeting is called in response to the request of several states, and is likely to prove a lively affair. The business to come before this special meeting is as follows:

First—To investigate the financial standing of the League of American Wheelmen.

Second—To investigate and consider the standing of the L. A. W. with reference to the publication of the magazine Good Roads.

Third—to amend article 4, section 2, of the constitution, and article 4, section 1, of the by-laws, so that the power and duties of the executive and finance committee shall be defined, determined and made certain.

Racing men claim that falls on wood tracks injure them more than upon any other form of track surface. Zimmerman does not favor wood tracks at all.

The race committee of the League of American Wheelmen has decided to spend $5,000 for prizes to be awarded at the International races to be held in Chicago next month.

J. F. Bliss, of Chicago, is entitled to rank among the fastest racing men in the United States. He repeatedly defeated Johnson on the recent circuit and improves steadily in practice. He is confident of winning one of the championship emblems at the International races.

An English cycling authority says that England has three men who, with pacemakers, can ride a mile in 2.05. America has five men who can, with pacemakers, reel of a mile in 2.05. They are Zimmerman, Sanger, Johnson, Windle and Tyler, McDuffee, Wheeler, Lumsden, Munger, Nelson, George Banker, Dinsberger and C. M. Murphy claim that before the season ends they will be in condition to ride a mile in 2.05 with pacemakers.

Harry C. Tyler is riding in brilliant style this season, and many good judges believe that he will win one or more of the championship emblems at the international race meet to be held in Chicago next month. In the one mile open race at the Asbury Park Wheelmen's meet Saturday Zimmerman had all he could do to beat the Springfield crack by two inches. In a race against time without pacemakers at Hampton Park last week Tyler rode a flying quarter in 27 3-5s. The record against time is 26 2-5s, and in competition 27s with flying start.

HOW MEN TEACH GREEN GIRLS.

Why Countless Women Prefer Life in Factories to Housework.

It may be asked, with impatient curiosity, what the solitary advantage is which factory work possesses over housework? and the answer is briefly this: It is faithfully, thoroughly, ruthlessly taught, for men as masters have that priceless precision of knowledge which heedless confidence commands respect, and rinse the spirit of help and self-reliance in the highest degree. In the factory the first week's taken with raw hands is to show them an exact sample of their work. No knowledge is taken for granted, nothing is passed by; they are [illegible]

ASTRONOMY.

B. C. 270. Aristotle's "Concerning the Heavens" and "Meteorology" (on the Method of the Sciences" written.

B. C. 365. Hipparchus, of Syracuse, taught that the sun and stars were motionless and that the earth moved round them.

B. C. 330. The operation of eclipses calculated by Calippus, the Athenian.

B. C. 315. Pytheas, of Marseilles, discovered that the tides were caused by the moon.

B. C. 300. Euclid, of Alexandria, published his "Optics," "Catoptrics" and "Phenomena."

B. C. 280. The first great work of Aristarchus of Samos, "On the Magnitudes and Distances of the Sun and Moon," published.

B. C. 270. Aristarchus discovered the motion of the earth round the sun.

B. C. 240. Eratosthenes made a catalogue of forty-eight different constellations.

B. C. 235. Two great comets appeared at the birth of Ptolemy Euergetes, and remained visible for seventy-two days.

B. C. 190. Hipparchus discovered the precession of the equinoxes.

B. C. 162. Hipparchus made a catalogue of 1,080 fixed stars, and invented the astrolabe.

B. C. 134. Hipparchus made a catalogue of forty-eight different constellations.

B. C. 125. Two great comets appeared at the birth of Mithridates, and remained visible for seventy-two days.

B. C. 120. Hipparchus discovered the place and distances of the planets.

B. C. 100. Gallus, of Rome, predicted a lunar eclipse, which occurred on time.

B. C. 100. Hipparchus discovered the motion of sun and moon and the precession of the equinoxes.

B. C. 127. Hipparchus made a catalogue of forty-eight different constellations.

B. C. 125. Two great comets appeared at the birth of Mithridates, and remained visible for seventy-two days.

B. C. 120. The Chinese before this time had explained the theory of eclipses.

B. C. 29. Posidonius explained the tide and the source of the moon's light.

A. D. 1. A lunar eclipse quelled a revolt of the Roman Legions.

A. D. 120. Ptolemy discovered the places and distances of the planets.

A. D. 240. Astronomy much studied by the Arabs as an exact science.

1000. A total solar eclipse interrupted the battle of Sickleshall.

1191. A total eclipse in England; the stars visible at 10 a. m.

1250. Astronomy first taught in Europe as a science by the Moors of Spain.

1253. The Alphonsine tables collected in Spain by Alphonso X. of Castile.

1261. A large comet appeared. Its tail extended 100 degrees.

Tribes Which Disturb the Market.

Prices of grain are often affected by an occurrence of a trivial nature. Tricks are resorted to by certain speculators and others to influence values. Nearly all of them, however, fall of the intended purpose. The speculative mouth in which is especially the "future" on which sometimes quick and sudden changes are rung. Recently July wheat was the center of attraction. Naturally "pointers" are sought for by the prospective investor as well as the "talent." The weather here and abroad, condition of crops, foreign difficulties, and often the health of ocists, cut important figures on the market. A two-day rain rumor will put up prices about 5 cents, while week's sunshine to the wheat belt will put it down that much. The other day prices had sagged down and were sprouted, so to speak. The bulls tried their best to get it out of the rut without success. At this juncture a commission merchant exhibited a letter he had received from a country storekeeper located in a small Illinois town, conveying the intelligence that the writer thought he detected a thrush in a wheatfield. July wheat immediately jumped up one half cent a bushel. This was appreciations to the great outside public, yet it is nevertheless true that the insignificant and the unlooked-for seems the marked more often than the well-rounded painter.—Globe Democrat.
